Who We Are

2

Mizuki Capital is a group of investors focused on supporting early-stage cryptocurrency projects.

Nevertheless, our organization is much more than a simple venture capital company. Besides the investment core business, we support crypto start-ups with marketing, market analytics, advice, and a wide range of business connections.

Our dedicated team of experts with a broad experience and proven track record in the cryptocurrency and the traditional financial market is here to help all our partners.

Seed and Private Investments

3

We are actively looking for investment opportunities in the crypto space.

That means that Mizuki Capital is always on the lookout for fresh ideas and revolutionary solutions to financially support.

Our organization participates in seed and private sales, but sometimes also in promising IDOs, ICOs, and other variations of crypto-related fundraising processes with all our partners receiving full logistical and strategic support.

Crypto Start-Up Advising

4

Our team consists of long-time crypto experts and investors.

Therefore, Mizuki Capital is also able to provide guidance through the ground-floor start-up stages and thus help taking projects safely through the infancy steps.

Furthermore, through our wide network of business connections, we can open various business possibilities for our partners through careful planning and invaluable advice.

Mizuki Capital can be your crucial piece of the success puzzle.

Crypto Marketing

5

Regardless of the quality of the project, marketing is the thing that can separate a venture from the competition or bury it deep below some possibly worse solutions.

Therefore, our team is here to provide a wide range of support with the start-up marketing planning and execution.

Social media marketing, community communication, and high-quality branding is everything Mizuki Capital can take to a higher level.

Equity Investments

6

Providing a financial injection in exchange for equity of a company is a way of supporting a highly perspective project.

Therefore, given the right circumstances, Mizuki Capital is willing to consider such a business collaboration.

If our team finds a cryptocurrency early-stage business to have a high potential, we are open to negotiating a mutually beneficial deal and thus provide our full support for the venture.

We will be happy to evaluate your proposal.
